listing Description

Kinex Media is a Digital Agency in Toronto. We specialize in Website design & development, Magento ecommerce, SEO, SEM & Print.
Our dedicated team of website designers, developers and promotion experts build beautiful websites, create innovative animations and illustrations, and co-ordinate effective online marketing strategies that can boost any corporate identity.
We're passionate about website design, ecommerce and Flash design, obsessed with online marketing and – if you'll excuse the gushing – we pretty much adore branding design, web applications, print design, web seo and all of our illustration agency challenges as well.
Basically, we love what we do – and that's reflected in both the quality of our work and our reputation.
